

Energy Surcharge 2025

LINEAS

OUR BASE OFFER INCLUDES ENERGY COST UP TO 80 EURO PER MWH OR €0,95 PER LITER AND STANDARD CONTRACT CONDITIONS, UNLESS SPECIFIED OTHERWISE.

Framework of our offer and the energy surcharge

- Lineas covers in its base offer an energy cost up to €80/MWh or €0,95/L.
- Energy cost above €80/MWh or €0,95/L will be charged as a surcharge with no margin.
- The surcharge is charged as a percentage of the total transport price.
- The value of the surcharge is based on the EEX Power Futures for electricity and the EU Weekly Oil Bulletin for diesel.
- We adjust energy rates and surcharge values per quarter.

Lineas surcharge grid Conventional Traffic – Electricity

Energy Surcharge Grid for 2025 based on the EEX power futures

- For 2025, and to simplify the surcharge process for our customers, the energy surcharge will be expressed in percentage of the transport price.
- On the 26th day of the last month of the quarter, we publish the rate for next quarter on our website.
- The grid below is applicable for the year 2025.
- For trains raling through multiple countries, an average of those countries will be applied.

EEX- Market rate (€/MWh)	0-19	20-39	40-59	60-79	80-99	100-119	120-139	140-159	160-179	180-199	200-219	220-239	240-259	260-279	280-299	300-320
BE	0,0%	0,0%	0,1%	0,7%	1,2%	1,7%	2,2%	2,8%	3,3%	3,8%	4,3%	4,9%	5,4%	5,9%	6,4%	7,0%
DE	0,0%	0,0%	0,0%	0,4%	0,9%	1,5%	2,0%	2,5%	3,0%	3,6%	4,1%	4,6%	5,1%	5,7%	6,2%	6,7%
NL	0,9%	0,9%	0,9%	0,9%	0,9%	0,9%	0,9%	0,9%	0,9%	0,9%	0,9%	0,9%	0,9%	0,9%	0,9%	0,9%
FR	0,0%	0,0%	0,0%	0,0%	0,1%	0,4%	0,8%	1,2%	1,6%	2,0%	2,4%	2,8%	3,2%	3,6%	3,9%	4,3%

- The % is based on EEX quarter future market and the value is based on the average of a basket of these dates from the quarter-1 :
25th of second month of the quarter-1, 5th of third month of the quarter-1, 15th of third month of the quarter-1, 25th of third month of the quarter-1.
- If on weekends or holidays, values from last weekday before these dates applies.

Lineas surcharge grid Conventional Traffic – Diesel

Energy Surcharge Grid for 2025 based on the EU Oil Bulletin

- For 2025, and to simplify the surcharge process for our customers, the energy surcharge will be expressed in percentage of the transport price.
- On the 26th day of the last month of the quarter, we publish the rate for next quarter on our website.
- The grid below is applicable for the year 2025.
- For trains railing through multiple countries, an average of those countries will be applied.

EU Oil bulletin - Market rate (€/L)	0-0,95	0,95-1,00	1,01-1,05	1,06-1,10	1,11-1,15	1,16-1,20	1,21-1,25	1,26-1,30	1,31-1,35
BE DE NL FR	0,0%	0,4%	0,7%	1,1%	1,5%	1,8%	2,2%	2,6%	2,9%

•The % is based on the oil prices of the EU Weekly Oil bulletin and the forecasted oil prices for the next quarter (Brent’s Crude Oil price).
